Honolulu launches pilot for INIT's HOLO, US

The Honolulu Authority for Rapid Transportation (HART), in collaboration with the City and County of Honolulu Department of Transportation Services (DTS), has launched a three-month pilot programme for the HOLO smartcard, the account-based electronic fare system supplied by INIT. HOLO will be deployed on the city's TheBus system. A full rollout is planned to start in December 2020 with plans to integrate the upcoming 32-km Honolulu Rail Transit project and Biki bike share system.
